Analysis of Blood and Its Role in the Legitimation, Alcoholic Crimes Theft, and Killings in Islamic Sharia

*A. Al-Saifi and A.Hassouneh **

ABSTRACT

This research addressed the important issue of proof in matters of Islamic law on the use of blood analysis as a means of proof in the areas of descent and crimes; especially after the recent developments in this area.

The research analysis of the blood as an argument in defense of proof is not in the area of crime rates and alcohol as a defense in the argument and evidence in homicide and robbery.

Keywords: Jurisprudence, Proof, New jurisprudence Issues, Judiciary.
